Subject: Limestone Electric Generating Station
EPA's Final Steam Electric Reconsideration Rule
Withdrawal of Notice of Planned Participation and Related Updates
TPDES Permit No. WQ0002430000

Dear Mr. Udenenwu:

NRG Texas Power LLC ("NRG Texas") received a December 31, 2025 TCEQ-determined compliance date for Part 423-regulated ("ELG Rule") bottom ash transport and Flue Gas Desulfurization (FGD) water discharges to surface waters of the state at the Limestone Electric Generating Station (Limestone) located in Limestone County, Texas. NRG Texas is working diligently on an ELG Rule compliance path for Limestone.

As such, NRG Texas is withdrawing the Notice of Planned Participation, as it relates to permanent cessation of coal burning activities, which was submitted to TCEQ on a contingent basis on October 13, 2021, and its related updates.

If you have any questions, do not hesitate to contact me at (713) 537-2776 or by email at craig.eckberg@nrg.com.

Sincerely,

A handwritten signature in blue ink that reads "C.R. Eckberg". The signature is fluid and cursive, with a large loop at the end.

Craig Eckberg
Sr. Director, Environmental Services
NRG Energy, Inc.
