

**NOTICE OF INTENT TO INITIATE CLOSURE  
SOUTH SETTLING POND  
HUNTLEY GENERATING STATION**

April 7, 2021

As aligned to the requirements of 40 CFR §257.102(g) and §257.106(i)(7), Huntley Power LLC is providing notification of our Intent to Close the South Settling Pond at the Huntley Generating Station, utilizing a Closure in Place methodology commensurate with the written Closure Plan developed per §257.102(b). If deemed viable based upon forthcoming information, this approach may be superseded by a decision to pursue Closure by Removal to achieve a clean closure in accordance with §257.102(c). In that event, an updated Notice of Closure will be provided and the written Closure Plan amended as appropriate.

This current notification is being entered into the facility operating record per §257.105(i)(7), and also posted on the publicly available website per §257.107(i)(7).

**CERTIFICATION:**

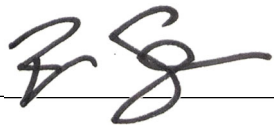

As a professional engineer licensed in the State of New York, I hereby certify to the best of my knowledge, information, and belief, that the final cover system design for in-place closure of the South Settling Pond is compliant with and satisfies the criteria specified in §257.102(d)(3)(i).
