S&L Project No. 12661-053

Rev. 0
Issue Date: December 13, 2016
Issue Purpose: Use

1 PURPOSE

Pursuant to 40 CFR 257.80(c), this document provides the annual fugitive dust control report for NRG Texas Power LLC's (NRG) Limestone Generating Station near Jewett, Texas.

Since the initial CCR Fugitive Dust Control Plan was placed in the Station's operating record in October of 2015, no specific measures beyond the control measures presented in the Plan were required to control CCR fugitive dust at the Limestone Generating Station. No citizen complaints have been recorded regarding CCR fugitive dust at the Limestone Generating Station and, as such, no corrective measures have been taken beyond the established CCR Fugitive Dust Control Plan procedures.

2 CONCLUSION

NRG will continue to review and evaluate the effectiveness of the CCR Fugitive Dust Control Plan, complete and retain CCR Fugitive Dust Monitoring Reports at least quarterly, and record and address citizen complaints as required in accordance with the CCR Fugitive Dust Control Plan.

3 CERTIFICATION

I certify that this document was prepared by me or under my supervision and that I am a registered professional engineer under the laws of the State of Texas.
