

November 2, 2018

This notice is being provided as required by 40 CFR 257.106(h)(6) for Lincoln Stone Quarry. The constituents listed below are listed in Appendix IV to 40 CFR Part 257 Subpart D and were detected at statistically significant levels at or above the established groundwater protection standards. The constituents were detected at locations either within the existing Illinois Environmental Protection Agency approved Groundwater Management Zone (GMZ) or the approved Zone Of Attenuation, the purpose of which is to protect the groundwater from the landfill.

- Arsenic
- Lithium
- Molybdenum

No other constituent listed in Appendix IV was detected at or above statistically significant levels of the established groundwater protection standards.
