Semiannual Progress Report – Selection of Remedy
Powerton Generating Station
Ash Surge Basin and Ash Bypass Basin
13082 E. Manito Road, Pekin, Illinois

In accordance with the requirements of Title 35 of the Illinois Administrative Code, §845 - Standards for the Disposal of Coal Combustion Residuals (CCR) in Surface Impoundments (“IL CCR Rule”) Part 845.670(a), this document is the semiannual progress report for the report period ending June 2026.

Midwest Generation, LLC (“MWG”) finalized the Assessment of Corrective Measures Report for the Ash Surge Basin and Ash Bypass Basin during the semi-annual period ending December 2025. No final determination on corrective measures has been decided. As required by 35 IAC §845.660(d), MWG hosted public meetings to discuss the results of the corrective measures assessment for the Ash Surge Basin and Ash Bypass Basin with the public on July 6 and 7, 2026.

MWG is continuing to coordinate the next steps for the Ash Surge Basin and Ash Bypass Basin with the Illinois EPA in consideration of the requirements prescribed within the IL CCR Rule. As part of the process for corrective action at CCR surface impoundments, MWG will submit a construction permit application for corrective action pursuant to 30 IAC §845.670(b).

MWG continues to perform groundwater monitoring in accordance with the federal CCR Rule and IL CCR Rule.
