

Notification of Initiation of Assessment of Corrective Measures

Powerton Generating Station – IL0002232

April 15, 2025

This notice is being provided as required by 40 CFR 257.95(g)(5) for the Ash Surge Basin and Bypass Basin at the Powerton Generating Station. Constituents listed in Appendix IV to 40 CFR Part 257 Subpart D were detected at statistically significant levels (SSL) at or above the established groundwater protection standards (GWPS). An Assessment of Corrective Measures has been initiated per §257.95(g)(3)(i) and §257.96(a).

Accordingly, this notification is being made by Midwest Generation, LLC to satisfy the requirements of §257.95(g)(5), including documented placement of this information into the facility's operating record [§257.105(h)(9)]. This notification is being further provided to the State to comply with the obligations of §257.106(h)(7) and will also be posted on the publicly accessible website per §257.107(h)(7). This posting will be available on our public website at <http://www.nrg.com/legal/coal-combustion-residuals>.
